Forecast for Monday 01 Feb 2021

Weather: Largely dry and cloudy overnight. Some low cloud to start the day but brightening up during the morning. Cloud thickening in the afternoon then patchy light snow spreading east soon after dark. Sleet or snow becoming heavy from mid-evening but turning to rain below about 900m by midnight.

Chance of cloud free mountain/hill tops above 800m: 20% overnight becoming 70% during morning. Becoming 10% in evening as snow spreads east.

Visibility: Extensive cloud above 400m at first, lifting during the morning but lingering on the high summits. Otherwise, very good visibility for much of the day away from cloud. Deteriorating during the evening with extensive cloud developing, bases 400-600m.
